The End of Today...

As **ZERO HOUR** reached its startling conclusion and the final shocking event that sets time right forever, a new but very familiar DC Universe is born.

Everything we remember, everything we know, is still true, but previously untold secrets are about to be revealed, and some classic heroes will emerge with a clearer understanding of who and what they are and, often, with enhanced powers to use in the cause of justice.

In an unprecedented effort to serve the needs of both current DC fans and new readers who want to see what all the excitement is about, DC Comics has created a unique ZERO MONTH following immediately on the heels of the ZERO HOUR miniseries.

All DC super-hero titles shipping in August will be special ZERO issues...

They are the most familiar and best known heroes in comics, and they have become part of our modern mythology.
